

Of capital, steel and a sense of duty.

Joe Ruffolo, of Ruffolo Benson, isn't just a member of Tower Bank, he's a founding member and he serves with distinction on our board of directors. As does Jerry Henry, Jr., entrepreneur and president of Midwest Pipe & Steel. Why? Because, according to Joe, "This region depends on Tower. Of all the banks in the area, Tower is truly the one that cares most about the people of this community." Jerry agrees. "Only a community bank can really understand the needs of the community. Joe and I are both proud to help shepherd this valuable community resource."
